

Chimeric Antigen Receptor T- Cell Workshop

GEBRI Institute in collaboration with Analysis Co. invites you to attend the one-day Workshop for CAR T- cell research that will be held within January 2020 at the Institute's Central laboratories

Certificate of participation will be provided for all attendees

Presented by:
Prof. Nashwa El-Khazragy
Clinical Pathology/Hematology
Biomedical Research Department
Faculty of Medicine
Ain Shams University

Workshop outlines

- ✓ Overview on CAR-T cell engineering.
- ✓ T cell isolation using magnetic beads & Characterization.
- ✓ Genetic Engineering of CAR-T.
- ✓ Deliver of CAR-T plasmid into T-Cell with CRISPR-cas9.
- ✓ Culturing of genetic engineered T-Cell.
- ✓ Co-culture & analysis of cell killing effect.
