

# Workshop ON

**Next Generation Sequencing Applications  
and Biomarker Identification: From experimental  
design - Data analysis to personalized Medicine.**

**7-9 December 2020**

**Under the auspices of**

Prof. Dr. Ahmed Mohamed Bayoumi

President of University of Sadat City

Prof. Dr. Shaden Muawia Hanafy

Vice President of University of Sadat City for Postgraduate  
Studies and Research Affairs.

Prof. Dr. Omaima Khamiss

Dean of GEBRI

**Organized by**

Dr. Manal Osama El Hamshary

Director of Molecular Diagnostics Therapeutics and  
Genomics Laboratory.

**In association with**

Science and Technology Development Fund (STDF)

01026022313

## Agenda/ Topics:

- Introduction to personalized diagnosis and tailored therapy using next generation sequencing
- Different applications of NGS
- Workflow and wet lab
- Bioinformatics and data analysis

## Speakers:

- Prof. Dr. Hisham Ismail
- Prof. Dr. Randa Mohamed Talaat
- Dr. Manal El Hamshary
- Dr. Moustafa Sakr
- Dr. Mohamed Kamal
- Dr. Amr Osama

## Venue:

Genetic Engineering and biotechnology Research Institute, University Of Sadat City, Abdel Moneim Riad Street, Sadat City, Menoufia governorate, Egypt.

## Workshop registration fees

Category	Registration fees
Participant	2000 L.E
Group (5 participants)	1750 L.E
Group (10 participants)	1500 L.E
Lectures attendance only	1000 L.E
USC and GEBRI staff	1500 L.E

\*A comprehensive subscription is needed to attend the lectures, practical part, coffee break and course handouts.

**Mask and social distancing is mandatory**

\*Please visit the workshop website for more details for registration and registration form.
